

Classic Guitar Nylon Strings

6 different tension levels are available:

Red Label	– SHT Super High Tension
Blue Label	– HT High Tension
diff. Labels	– MHT Medium High Tension
Black Labels	– MT Medium Tension
Green Labels	– LT Low Tension
Yellow Labels	– SLT Super Low Tension

	Red/SHT	Blue/HT	MHT	Black/MT	Green/LT	Yellow/SLT
	daN	daN	daN	daN	daN	daN
E/1st	7.8	7.8	7.5	7.3	7.3	7.0
H/2nd	6.5	6.5	6.5	6.2	6.2	5.6
G/3rd	6.8	6.8	6.8	6.4	6.4	6.0
D/4th	8.3	7.8	7.5	7.2	6.8	6.2
A/5th	8.0	7.7	7.4	7.0	6.5	6.2
E/6th	8.0	7.7	7.4	7.0	6.5	6.0

Special Versions

It goes without saying that we are at your disposal for solving any special string problem you might have. So as to let us help you, we require the following data:

1. String sound required
(if possible, enclose pattern)
2. Precise scale length (vibrating between bridge and saddle)
3. Total string length
4. Required string tension, in daN.

Classic Guitar Nylon Strings in Bulk

Minimum order quantities and prices upon request.

Packaging:

Sets:

All string sets are packed 12 or 24 per box.

Single strings:

All strings packed 12 per plastic bag.

E7287	HT (High Tension)	1 Bass-Set
E728	MT (Medium Tension)	1 Set
E7287	MT (Medium Tension)	1 Bass Set
E728	LT (Low Tension)	1 Set
E7287	LT (Low Tension)	1 Bass Set

New!

A new string – a new package!

Hand-made classic-strings for pro players.

The strings:

E1, H2, G3 trebles – crystal clear and finely calibrated. Newly developed basses: highly resilient plastic fibres wound with hard silver-plated, round-section wires.

The packaging:

Thanks to a newly designed packaging unit you have only one bag to dispose of! Trebles and basses are twisted together into one single unit each.

Marking:

To improve visibility, one end of all E1 strings is color-coded. With this series, D4 strings come without loosely spun ends.

Our new *custom-made No. 728* series of strings will be available in three versions:

LOW TENSION, MEDIUM TENSION and HIGH TENSION.

You will have the choice between complete sets and bass sets.

Series 725 MHT

Goldin

Tension: Medium/High

E725 MHT	Set	
E7251 MHTC	E/1	Super Carbon
E7252 MHTC	H/2	Super Carbon
E7253 MHTC	G/3	Super Carbon
E7254 MHT	D/4	GOLDIN
E7255 MHT	A/5	GOLDIN
E7256 MHT	E/6	GOLDIN
E7257 MHT		3erBa
E7258 MHTC		3erDi

The strings:

The trebles (EHG) are made of golden yellow SUPER CARBON. They sound softer and warmer than conventional carbon strings. The basses (DAE6) are characterised by a novel, high-density and highly resistant plastic soul. Winding wires are made of „GOLDIN“, a newly developed golden yellow metal alloy (100% nickel and cadmium-free). Basses sound clearly and brilliantly.

Obviously, you can combine Super Carbon trebles with any set of HANNABACH bass strings.

Carbon

Treblestrings

ECar 1 MHT	E/1
ECar 2 MHT	H/2
ECar 3 MHT	G/3
ECar 8 MHT	3 trebles

Obviously, you can combine Carbon trebles with any set of HANNABACH bass strings.

Series 7004

Durable

E7004 HT	D4	Durable
E7004 MT	D4	Durable

Durability, particularly regarding the D4 string which is subject to such severe demands, is made possible for the first time through the use of a very hard alloy.

Combine the high-performance "Durable" string with the set which you prefer, and you will find that the premature replacement of a D4 has become a thing of the past. The "Durable" fits in harmoniously, in terms of quality and tension, to the broad spectrum of HANNABACH hand-made strings. The two different tensions, MT and HT, are immediately available thanks to the speed with which they can be tuned, and because of their highly resistant alloys (which even resist the perspiration of the hand) will be a match for any situation for a long time to come.
